

Create your Digital Future with incadea's Vehicle Reception App and it's extended capability of Vehicle Health Check (VHC)

Digital

Effective

Customer-
Centric

Structured

Flexible

Integrated

**Take another
step in the
digitalization
process with
our new mobile
application.**

From welcoming customers and scanning license plates to electronic sign-off service order scope, Vehicle Reception App supports the Service Advisors in reducing administrative efforts to boost upsell and provide time and focus on customer care. All reception tasks and steps are designed in a structured way to achieve the best user experience.

incadea presents a modern approach to technology, empowering OEMs, importers and dealerships accelerate business productivity and user experience.

Let's build great customer experiences together.

Key Functionalities

Quickly find the Service Order with **AI-powered License Plate Recognition**.

Benefit from a **guided, structured way to document current vehicle condition** and define the scope of work for the Service Order with the support of the Vehicle Health Check (VHC).

Customize checklists for each vehicle type and boost the potential upsell, no matter if you service a car, a truck or a van.

5 whys for incadea's Vehicle Reception App

- 01 Provide Mobility**› Vehicle Reception App with VHC provides service technicians mobility to complete service reception without being tied to a desk, including an electronic signature for service order confirmation.
- 02 Data Access**› Collected data from the checklist and media are immediately available for future processing in incadea.dms to boost upsell.
- 03 Enhanced Visualization**› Signal indicator lights assist in understanding checkpoints' results requiring immediate attention (Red Light), checkpoints that should be dealt with soon (Yellow), or checkpoints where no action is needed (Green).
- 04 Unlimited Possibilities**› VHC offers highly customizable capabilities in creating its checklists depending on the vehicle type or checkpoints (jobs) to perform.
- 05 Enable Efficiency**› License Plate Recognition assists in finding the correct service order and vehicle to speed up the service reception process and start VHC.

Take the next Step.
